Horseback Riding and Helmet Release

The goals of our MasterSchool horseback riding program are: safety around horses, control of horses, and poise on a horse. Each rider will learn how to approach, mount, dismount and behave around horses. Each rider will learn to rein correctly. Each rider will be allowed to walk a horse; some may want to learn to trot or to ride at a slow canter, but no child will be permitted to ride at a faster gait and no one may jump the horses. Riders will practice safety, control and poise on a horse on short trail rides; more advanced riders may take longer trail rides on the ranch. Although no child will ride faster than a slow canter and no child will jump a horse, you may want your child to wear a riding helmet. MasterSchool does not provide these helmets. A bike helmet does not provide adequate protection, but you may buy a riding helmet at most feed and tack stores, as well as at some athletic equipment stores.

_____ (Child's Name) may ride horses at MasterSchool WITHOUT a helmet.
